

THE ANNUAL CASC SURVEY

2018

"WITHOUT DATA, YOU'RE JUST ANOTHER PERSON WITH AN OPINION"
W. EDWARDS DEMING

HISTORY

Since 2010, CASC have organised and supported the only independent, detailed annual survey looking at clinical audit. We have had over 1,500 responses and the data returned has been high quality. Trends have been consistent and high profile audit leaders like Sir Nick Black have endorsed this work.

FEEDBACK

Clinical audit is all about measuring and improving. Our survey gives respondents a voice and a chance to have their say about clinical audit. All replies are anonymised and this year the survey has been overhauled substantially. This means it is quicker to complete and results will be shared more rapidly.

MAKE SURE YOUR VOICE IS HEARD
