

Train the Trainer in Clinical Audit (Level 2)

With healthcare professionals increasingly expect to participate in clinical audit to demonstrate quality improvement and safe/effective care, demand for high quality training in clinical audit continues to grow. In 2008, CASC launched this innovative course that provides those who want to teach clinical audit with a unique set of training tools. All staff with a clinical audit training remit will be interested in the course as it provides them with the tools required to deliver effective training. Research has identified that one of the key barriers to healthcare professionals undertaking robust clinical audit is a lack of training.

-  **LEARNERS** are provided with a pack of clinical audit training materials
-  **UNDERSTAND** how to profile learners and your learning style
-  **PRACTICAL** experience of lessons plans and carrying out a short microteach
-  **TUTORS** focus on the practical usage of the Clinical Audit Teaching Toolkit
-  **ACCREDITATION** provides a generic training qualification valid across settings
-  **APPROVED** 99% of learners state they would recommend it to others.

ENROLLING ONTO THE COURSE & COST

The course is typically delivered every six months in Leicester at Devonshire Place (www.devonshire-place.co.uk) Cost is £250 +VAT per learner (accredited) or £200 +VAT per learner (attendance only) We can train up to 8 learners per workshop. If you have a number of local learners it is usually more cost effective to run the course on an in-house basis. We can also adapt this to meet local needs.

To register your interest in the course please contact info@clinicalauditsupport.com
To speak to a member of the Clinical Audit Support Centre please telephone 0116 2643411
